Krishna Rangnadayya

You have sent me
a P.O last evening which
requires modification or
else I must rearrange Dr
Narasimha Rao's teaching
altogether. He is not
lecturer in Physiology in
the College, and — under
a reference to the Senate
Surgeon alone matters
in a new light — has not
the time to spare to be
attended daily to take the two
B.A. Classes (Section C)

In the Zoology and Botany portions of this work the pupils each class receive 4 hours each

The F.A Physiology each gets 3 hours each a week from Mr. Venkat Ramanappa — Physical Science assistant — and Dr. Mr Sampurnanand has not the time to spare for them

Of course all his duties are to be attended to that he can take time

Should be quite pleased
but this [illegible] appears to
have been drawn up
under a misunderstanding
He was taking an Physiology
when last [illegible] A class,
for one year when we had
only a Junr B.A class in
Geology since then
she's, I expect-

Yours sincerely
[illegible]

To

The Secretary to Govt of Mysore
General & Revenue Depth

Sir,

With reference to your D O
letter dated 7 Dec 1899 re the
teaching of Mr Srinivasa Rau
I have the honor to state that
there was no mistake in my
letter no 245 to the Senior Surgeon
and Sanitary Commissioner, Govt of
Mysore

Mr M Srinivasa Rau had the
whole of the Biology and Geology
teaching during the first half
of 1898 until the arrival of
Mr Wetherell in accordance with
Government Order no 12239-41 Ed 311 dated
29 March 1898 on Mr Wetherell's
arrival he was appointed to take
Biology

Sl to 14
7 Feb '00

appointed who takes all the
work of both Lecturers

The arrangement of the
Geological specimens, Crystal
models &c has not yet been
completed, as we shall having
been quite unable to spare time
for doing this — much to
my surprise and disappointment

As it is probable however that
the Geology course may be
altered shortly so as to include
less Biology than it does at present
I would suggest that the present
arrangement continue until we
see whether the University will
adopt modifications of the
present Geology course

I have the honor to be
Sir
Your most obedient Servant

Pe 203 Proceedings of the Government of Mysore

Correspondence ending with letter No 1289 dated 22nd November 1899, from the Senior Surgeon and Sanitary Commissioner

2 Letter No 322 dated 20th December 1899, from the Principal, Central College, Bangalore, reporting the present allotment of teaching work in the college both to Mr M Sreenivas Row and Mr F W Wetherall

---

Order thereon No 7784-85 Dated Bangalore, 8th January 1900
Mis F 28-96

The Senior Surgeon now reports that he has decided not to allow outsiders to undergo a course of study in Bacteriology No orders are therefore called for in regard to the question of remuneration raised in his previous letter No 631 dated 31st August 1899

2 The Government regret to observe that Mr Wetherell is not able to overtake all the Geology teaching and that from the beginning of the year Mr Sreenivas Rov has had to do a part of the Geology work This arrangement, though not satisfactory and in accordance with the sanction conveyed in Government Order No 16899-904/Fd 444 dated 23rd June 1898, will continuein force for the present and the Government will await the further report of Mr. Cook after he is able to ascertain whether the University will adopt modifications of the present Geology course In the meantime it is hoped that the assortment and arrangement of Geological specimens crystal models &c will be completed

L No 410

Central College, Bangalore
14th January 1900

11

From
The Principal, Central College,
Bangalore

To
The Secretary to Govt of Mysore,
Genl & Rev Departments

Sir,

With reference to the second para of the Government Order No 7784-5 / P 28-96, dated 6th January 1900, I have the honor to submit for the consideration and orders of the Government a proposal made to me informally by Mr Smeeth, the State Geologist, that Mr Wetherell may be relieved of his teaching in the Central College for the first six months of the year, and that his place be taken by Mr Sambasiva Iyer, one of the Geological Assistants, who took a course in Geology at the Poona Science College and who is said by Mr Smeeth to be qualified for the work.

2 I have said to Mr Smeeth that, on his assurance that Mr Sambasiva Iyer is competent to do this work, I am agreeable that this arrangement be tried experimentally for the current year 1900, till I shall see how it works, but that I should prefer that I had one teacher only for all the work in the Geology Branch of the B A Course, rather than that it should be distributed among three as it will now be, as it is obvious that this prevents the responsibility for the results resting on any one's shoulders

3 I trust that the Government may be pleased to sanction as soon as possible a Professor of Geology for the Central College who shall be one of the ordinary members of the College Staff, and unconnected with other Departments as the present Lecturer are The disadvantages of the present arrangements will appear when I point out

(i) that in the case of Dr Srinivasa Rau, such connec-

absent for the College from

having gone to Bombay in connection with the Plague Commission

i) that in the case of Mr Wetherell it has led to his being unable to do more than two hours work a-day in the College, on account of press of work in the Geological Department, and consequently to his being unable to spare time to arrange the Geological specimens crystal models, &c , as well as to his being unable to take the students for any excursions into the country

4 Mr Smeeth informs me by D O that the Dewan has personally expressed to him his assent to the employment of Mr Sambasiva Iyer to lecture in lieu of Mr Wetherell But, as I have informed Mr Smeeth I can take action only on an Order of the Government communicated to me by the ordinary channel, as the Central College is quite independent of the Geological Department

5 It appears to me desirable that the Government should order that so far as the work of the College is concerned, the Lecturers in Geology, Biology and Physiology are under my orders just as much as if they were members of the regular College Staff

6 It is also desirable that Mr Sambasiva Iyer should relieve Dr M Srinivasa Rau of the Geology part of his teaching so that, in accordance with the Government Order, Dr M Srinivasa Rau may take at least part of the F A Physiology work - say at least the teaching of the Senior F A Class - three hours a week But in this case Mr Sambasiva Iyer will have to be present at the College more than two hours a day

7 As College re-opens for work on Wednesday the 24th Inst , it is highly desirable that orders may be passed with the least possible delay

I have the honor to be,

Sir,

Your most obedient servant,

Principal

From
The Principal,
Central College, Bangalore

To
The Secretary to Govt of Mysore,
Genl & Rev Depts, Bangalore

Sir,

I have the honor to submit for the orders of Government a letter No 112 G dated 19th January 1909, with enclosure, from Mr Smeeth, Secretary in the Geological Department, and to express my surprise that Mr Smeeth should have taken it upon him to write to me in the manner he has done Though Mr Smeeth is Secretary in the Geological Department, he is not Director or Dictator of the Geology teaching here Geology is merely two-thirds of one of the three Optional Branches of our B.A course, and my control of the teaching in this Branch must be on the same footing as my control of the teaching in any of the other Branches is This being so, I consider the whole tone of Mr Smeeth's letter an unwarranted interference with my position as Principal of this College.

2 Mr. Smeeth is quite incorrect in the statement which he makes in the second para of his letter. He came and discussed one morning in my house in a very off-hand way the proposals contained in the first six lines only (following the heading) of his enclosure, and even these proposals he seemed to have merely in scroll on a sheet of paper The discussion was of such a discursive and vague character that I never anticipated but that he would send me a fair copy of the proposals for careful consideration, and I never imagined that he would take it upon him to do anything else than send his proposal upto the Government for sanction in the usual way after I had expressed approval of the same in writing

3 I do not understand the meaning of para 3, how the proposal could be a matter of correspondence, seeing that its distribution

of work covers the whole of the two years of the Junior and Senior B.A Classes.

2 3

4 The second part of Mr.Smeeth's "enclosure" referring to the practical work does not agree with the University Syllabus in Geology, according to which our course is necessarily shaped. It was not discussed at all,and I object to the dictatorial way in which he puts it. I can easily make arrangements with the Lecturer for such practical work as is necessary and I cannot allow Mr.Smeeth to provide a time-table, as he threatens - seeing that it may not fit into our general time-table of the College. All time-table arrangements must be made by the Principal of course, after consultation with his Staff

5. As I have clearly explained to the Government in my letter No.410 dated 14th January 1900, I am agreeable that Mr Sambasiva Iyer be appointed acting Lecturer in Geology upto the end of July 1900 - Mr. Wetherell to resume his teaching as from the 1st August, it being understood that this arrangement is experimentalfor the current year in the first instance But I distinctly object to Mr.Smeeth interfering with my control of the teaching of the subject here. The Lecturers so far as the work here is concerned must be in the same position with respect to me as if they were members of the regular Staff. There has not been the slightest friction between Col Benson and myself with regard to the work of Dr.M.Srinivasa Rau here, and I have only to ask that the usual procedure be followed and any intimation or orders with regard to the teaching of the other Lecturer in that Branch shall be forwarded to me directly by the Secretary to Government, General and Revenue Departments

I have the honor to be,

Sir,

Your most obedient servant,

Newark

Principal.

Dear Sir

I have just received your letter dated regarding the postponement of my leaving Mysore. I wrote letter No 112 dated to the Principal of the Central College. I regret to learn from you that I have followed an incorrect procedure in this matter as it

Such consideration as the above together with the fact that I was in possession of the Reserve on the subject gave me the impression that the temporary substitution of Mr Vanbrunt Tyler as Lecturer was a matter which could well be settled between Mr Cook & myself and I trust you will see my action as due to this impression — & not to any neglect or hesitation to consult you on the matter

I am
